

Diagram illustrating joining of the blocks.
All blocks are identical.
Rotating each block 90° as they are joined
will result in a crazy quilt effect.

Finished size approximately 56" x 72". Finished block should equal 8".

¼" seam allowance. Templates have seam allowance added. (When downloading: must print at 100% to ensure 8" finished block size.)

Cutting:

Using templates A, B, C, and D, cut 126 of each using an assortment of the fabrics of your choice.

Construction:

1. Sew A shapes into pairs. Repeat with B, C, and D shapes.
2. Press seams open to distribute bulk evenly.
3. Place a narrow strip of stabilizer under the seam area and stitch decorative design centered over the seam line.

**Model was stitched using DMC Perle Cotton, color 743, size 8 on a Bernina 730 using the honeycomb stitch. The Perle Cotton was used in the bobbin, standard sewing thread was on the top and the work was done with the right side of the piece facing the machine bobbin, i.e. upside down. - this is a standard bobbin work technique.*

4. Sew C units to D units. Press seams open. Do decorative stitching as before.
5. Sew C/D units to A units. Press and stitch as before.
6. Sew A/C/D units to B units. Press and stitch as before.
7. Join blocks together into 9 rows of 7 blocks each. Rotate each block 90° from the one before. Press seams and stitch as before.
8. Join rows. Press seams and stitch as before.
9. Layer top and backing. Quilt as desired. Crazy quilts are traditionally tacked at random spots to secure layers. Tacking should not show on the front of the quilt. The original quilt does not have batting between the layers as the seams and stitching give added stability.
10. Bind.
